To whom it may concern:

I am writing in support of and advocacy for the **Port St. Nicholas Road Improvement Project (Project ID13681)**. As a resident of this area, my safety, as well as the other residents (at least 200 plus people), is compromised daily, by the basic state of this road. It is pock marked by thousands of ruts and holes. There are many people trekking this road on a daily basis and as they attempt to dodge these pot holes, regularly find themselves on the wrong side of the road. As you can imagine, this situation is bound to have some negative effects (hopefully not tragic!). I am specifically concerned about the school bus in which my daughter rides to and from school... if it isn't safe for the rest of us, you know it is even worse for a 60 foot bus!

This is a very important issue to me and I would like to request that you pursue its full funding and immediate inclusion in the 2006 budget. I am thanking you in advance for your immediate attention to this matter and serious consideration.

Respectfully,

Joe & Barbara Schneider
